

BookEventGetterI

```
graph BT; binance[binance::BookEventGetter] --> BookEventGetterI[BookEventGetterI];
```

A UML class diagram illustrating inheritance. At the bottom is a gray-shaded box labeled 'binance::BookEventGetter'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'BookEventGetterI'. The arrow indicates that 'binance::BookEventGetter' inherits from 'BookEventGetterI'.
